Subject: Transport Canada Follow Up Meeting: Trucker Protest Mitigation

Transport Canada convened the group to follow. Neil Weatherdon chaired the call.

Bilateral and multi-lateral conversations happened since Friday. Increased police activity in Ottawa. Deputies call last night with Public Safety Canada

Aaron McCrorie – Transport Canada

- Summary of DMs call Monday Night – Illegal Activities at Protests not peaceful legitimate public protests
 - TC providing advice and not dictating to law enforcement or jurisdictions impacted (at a table with Ottawa police through Public Safety Canada)
 - Maximum Strategic Enforcement Strategy in proposed to DM group – AB, Ottawa, Windsor, Ambassador Bridge are the current hotspots – No direction provided by DMS
 - Impacting communities and the economy
 - Drive home risks to participants including, licenses, property, charges and tickets – participants may not understand consequences

- Procurement sanctions – not allowed to contracts with government
- Road side checks under existing authorities – issue violations and deter potential criminal activity and security risks (weapons, etc.)

Quebec Response

- Agree with ticketing and procurement consequences – talking mechanics with various ministries in the province

Ontario – Ian Freeman

- Carrier profiles updated on convictions so carriers record may not be helpful given the time needed for the judicial process
- Consulting legal in that province – need to think about being on side of law to avoid risk post protests or legal issues for province

Aaron McCrorie – Transport Canada

- Any thoughts – do jurisdictions agree on this approach?

Crystal Dalmer – What about the other non-protesters?

NWT – Communications is fine but who is the lead for this strategy? No sense that a decision was made by DMs on how to proceed. NWT has key messages and is willing to share.
